Asphalt Design Guide - APAI

PavementDesigner is built on updated versions of ACPA's StreetPave, AirPave, and WinPAS programs, as well as PCA's PCAPave program. The portal includes pavement design guidance, substructure sensitivity, and asphalt design evaluation capabilities.

Pavement Design Archives - RCC Pavement Council

A road surface or pavement is the durable surface material laid down on an area intended to sustain vehicular or foot traffic, such as a road or walkway. In the past, gravel road surfaces, cobblestone and granite setts were extensively used, but these surfaces have mostly been replaced by asphalt or concrete laid on a compacted base course. Asphalt mixtures have been used in pavement ...

Design & Construction of Heavy-Duty Pavements

.designTable td { vertical-align:top; } .designTable td img{ border:0; } This design guide is intended to give general structural design and mix type selection guidance for some typical Iowa pavements. It is organized by general purpose, with each use type being addressed on a different page. These guidelines are intended for use in lieu of other guidance or specification. They are not ...
