## **INSAS Assault Rifle | Military-Today.com**

The dimple on the INSAS is more angular than that of the AKM. Below is the right hand side of the receiver. With a prominent SLR type carrying handle that's redundant and hardly ever used. Personally, I think this feature is a useless money sink in a 5.56mm rifle. Also missing in the INSAS is the large AK type selector lever.

## **The INSAS 5.56mm Rifle - A close and careful look**

The INSAS assault rifle is the standard infantry weapon of the Indian Armed Forces.

### **INSAS rifle | Military Wiki | Fandom**

The mass introduction of the INSAS rifle was initially delayed by the lack of domestically made

5.56 mm ammunition; India accordingly bought significant stocks from the Israeli company, IMI. At least 300,000 INSAS rifles are in service with the Indian army; some of these have seen action in Indo-Pakistani conflicts. Design
