On some shortwave radios, frequencies will look like 15100 KHz, 15105 KHz or 15110 KHz, whereas on other radios they might look like 15.1 MHz, 15.105 MHz or 15.11 MHz. To determine which frequency designation your radio has for shortwave, look at your radio's tuning scale, digital display, or owner's manual.

[Klingenfuss Shortwave Frequency Guide 2021](#)

This is because of improved propagation conditions on the lower frequencies or bands, reduced static noise created by storms, and because shortwave broadcasters like to aim for the local evening hours for their primary audience since most of them will now be at home listening to their World Band (Shortwave) radio receivers.

Actually, shortwave (HF) is 3-30 MHz; medium wave (MF) is 300 kHz to 3 MHz; and long wave (LF) is 30-300 kHz. Most of what's around 300 kHz is airport beacons. Yes, the AM broadcast band (and the amateur 160 band) are MF. Are you saying I shouldn't list them in a general list of "shortwave" frequencies?

Shortwave radio bands are very similar in concept except there are multiple shortwave bands with their own names like 25 meters, 31 meters, 49 meters, etc. (often abbreviated as 25m, 31m and 49m respectively). The chart below is a list of the shortwave radio bands used for international shortwave broadcasts and their corresponding frequency ranges.

[The Best Shortwave Radios in 2021 - FULL BUYER'S GUIDE!](#)

The rule of thumb: higher shortwave frequencies bounce best during the day; lower SW frequencies work better at night. Combine this with seasonal ionospheric variations and the sun's 11-year sunspot cycle, which affects how well SW signals bounce, and one can see that shortwave stations need a number of frequencies assigned to each of them.

[10 Best Shortwave Radios Review in 2021 - Buying Guide](#)

Results show the station name, the broadcast start and end time, the target area of the station (EU, Asia, Africa, North America etc.) and a list of frequencies including the transmitter location (swipe across to see more frequencies) Thanks to David Giménez for the translation into Spanish and Paolo Romani for the Italian translation.
