[Johnson Ham and Amateur Radio Transmitters for sale | In ...](#)

The EF Johnson, unlike the ATR10, does not maintain the same primary-to-secondary ratio as bands are changed. The Johnson KW and 275 watt Matchbox tuners have matching range and highest Q, and lowest power rating, on lower bands. Conversely, the Johnson tuner has narrowest match range and lowest Q, and highest power upper bands.

[Johnson Viking II Repair, Modification, and WARC Bands](#)

The Johnson 250-39 is the best full break-in T/R switch ever made. It has two stages to provide enough gain to overcome the insertion loss and then some. Other contemporaries often only had one RF tube section, which was noisy and caused signal loss, especially on 15 and 10 meters.

[EF Johnson 5100 Radio Accessories - Planet Headset](#)

The Johnson Matchbox is an Antenna coupler designed for matching Antenna and transmission line impedances to a 52 ohm impedance within the amateur bands from megacycles. The Matchbox also provides band switching and transfer of the coupler from Transmitter to Receiver and in addition mutes the Receiver and grounds the Antenna terminals during transmission.
