*This chapter surveys masculinities in China chronologically through the pre-modern (referring in this chapter to pre-1912), Republican, high socialist, and reform eras. Discourses, forms and practices of masculinities have seen significant transformations throughout Chinese history, yet enduring patterns and themes can be picked out, as this chapter shows.*

*For most people, being a teacher is a way to make a living but for others, it is simply a calling. It takes more to be teacher than it does to be in any other profession and that is why teachers are well appreciated in the society because they are the ones who ensure that our children are equipped with the necessary skills to grow into well rounded individuals.*
