[Mad Like Tesla Underdog Inventors](#)

Tyler Hamilton wrote the book in a way that was beautiful, heart-warming, engaging, informative, and genuinely interesting. It really is a book about underdogs, mad scientists, and dogged inventors. Fortunately Mad Like Tesla didn't jump off into an us-versus-them mentality, where it's big oil and the status quo against the little guys.

A search for the contemporary Nikola Tesla – considered a mad scientist by his society for predicting global warming more than 100 years ago – fuels this analysis of climate issues, which introduces thinkers and inventors who are working to find possible ways out of the energy crisis. From Louis Michaud, a retired refinery engineer who claims we can harness the energy of man-made tornadoes, to a professor and a businessman who are running a company that genetically modifies algae so it ...

Mad Like Tesla takes an in-depth look at climate issues, introducing thinkers and inventors such as Louis Michaud, a retired refinery engineer who claims we can harness the energy of man-made tornadoes, and a professor and a businessman who are running a company that genetically modifies algae so it can secrete ethanol naturally. These individuals and their unorthodox methods are profiled through first-person interviews, exploring the social, economic, financial, and personal obstacles that ...
