A glider or sailplane is a type of glider aircraft used in the leisure activity and sport of gliding (also called soaring). This unpowered aircraft can use naturally occurring currents of rising air in the atmosphere to gain altitude. Sailplanes are aerodynamically streamlined and so can fly a significant distance forward for a small decrease in altitude

Believe your conspiracy theories or not, the fact is that Area 51 is completely ingrained into pop culture by now. And while people can talk all they want about mysterious lights in the sky, the thing that triggers our curiosity the most is the fact that the US government was refusing to acknowledge the place even existed.
