[Emerging Markets: Definition, Characteristics, List](#)

Emerging markets have historically been a prime market for growth-oriented investors. After all, these economies are known for their rapid gross domestic product (GDP) growth compared to developed countries in Europe or the United States. As growth slows around the globe, as it did in 2019 and 2020, it could create an opportunity for value investors to get involved overseas.

Emerging markets are an amalgamation of paradoxes. Some 4.5 billion people remain unconnected to the internet, but most of them live within areas covered by 2G or 3G mobile access. 57 Mobile broadband is the key to getting people online, but greater mobile penetration depends on handset costs falling at the same time as low ARPU figures discourage investment by mobile operators.
