Discovery Learning (Jerome Bruner – 1961) To the foundation of constructive learning theory established by Piaget, Jerome Bruner contributed important ideas regarding (a) modes of representation, (b) the importance of teaching and learning “optimal structure” (J. S. Bruner, 1966b, p. 41), (c) the spiral curriculum, and (d) learning through acts of discovery in order to rearrange and transform what is learned “in such a way that one is enabled to go beyond the evidence so reassembled ...

PORTS

Constructivism is a theory in education that recognizes learners construct new understandings and knowledge, integrating with what they already know. This includes knowledge gained prior to entering school. It is associated with various philosophical positions, particularly in epistemology as well as ontology, politics, and ethics. The origin of the theory is also linked to Jean Piaget's ...
