As Islamic medical knowledge and methods began to filter into Western medieval medicine during the 12th century, so did their treatments for specific diseases. New healing substances were added to Western apothecaries while certain Western medicines, such as theriac, moved into Arab countries due to the growing Arab-European trade.

[Medicine in the medieval Islamic world - Wikipedia](#)

Hospitals. The hospital was one of the great achievements of medieval Islamic society. The relation of the design and development of Islamic hospitals to the earlier and contemporaneous poor and sick relief facilities offered by some Christian monasteries has not been fully delineated. Clearly, however, the medieval Islamic hospital was a more elaborate institution with a wider range of functions.
