Prepared by the Standard  
Design and Construction  
Guidelines for  
Microtunneling  
Committee of the  
Construction Institute of  
ASCE Standard Design  
and Construction  
Guidelines for  
Microtunneling, Standard  
ASCE/CI 36-15, covers  
the planning, design,  
materials, and construction  
for this trenchless method

of installing pipelines.

## **Standard Construction Guidelines for Microtunneling ...**

Standard Construction  
Guidelines for  
Microtunneling. This  
standard guideline covers  
the planning, design, pipe  
materials, and construction  
of microtunneling.  
Microtunneling is defined  
as a trenchless

construction method for installing pipelines. The North American definition of microtunneling describes a method and does not impose size limitations on such method.

## **Standard Design and Construction Guidelines for ...**

This standard guideline covers planning, design,

pipe materials, and construction of microtunneling. The term microtunneling is defined as a trenchless construction method for installing pipelines. The North American definition of microtunneling describes a method but does not impose size limitations on that method; therefore, a tunnel may be considered a microtunnel

if all of the following are used during construction:

Standard Construction Guidelines for Microtunneling This

standard guideline covers the planning, design, pipe materials, and construction of microtunneling. Microtunneling is defined as a trenchless construction method for installing pipelines.

**Standard Construction  
Guidelines For  
Microtunneling**  
Standard Construction

Guidelines for  
Microtunneling covers the  
planning, design, pipe  
materials, and construction  
of microtunneling, a  
trenchless construction  
method for installing  
pipelines. The North  
American definition of  
microtunneling describes a  
method and does not  
impose size limitations on  
that method.

## **Information**

ASCE has also published the book “Standard Construction Guidelines for Microtunneling,” which covers the planning, design, pipe materials and construction of microtunneling (CI/ASCE 36-15). By choosing properly designed pipe for the job, owners can achieve successful projects that meet the demands of

the public for generations to come.

## **ASCE TO RELEASE NEW MICROTUNNEL GUIDELINES**

2015 - ASCE publishes ASCE 36-15 Standard Design and Construction Guidelines for Microtunneling. NAMA members including: Lester Bradshaw, Brenden Tippets, and Cal Terrasas.
