With the decipherment of
Linear B by Michael

Ventris in 1952, serious questions about Evans' date began to be considered. Most notably, Blegen said that the inscribed stirrup jars, which are oil flasks with stirrup-shaped handles, imported from Crete around 1200 were of the same type as those dated by Evans to the destruction of 1400.

Linear A - Wikipedia

Michael George Francis Ventris, OBE (/ˈvɛntrɪs/; 12 July 1922 – 6 September 1956) was an English architect, classicist and philologist who deciphered Linear B, the ancient Mycenaean Greek script. A student of languages, Ventris had pursued the decipherment as a personal vocation since his adolescence.

The Decipherment Process - University of Cambridge

“The decipherment of Linear B opened up, and indeed created, a whole new branch of scholarship. It added about 500 years to our knowledge of Greek, catapulting our understanding of early Greek history and society back into the second

millennium BC, to the end of the Bronze Age at about 1200BC,” said Dr Torsten Meissner,...

Linear B - Wikipedia

A funny poem explaining how Linear B script was cleverly deciphered even though everyone was wrong about it. Including the very important contribution of Alice Kober.

The Decipherment Of Linear B

This celebrated account of the decipherment of Linear B in the 1950s by Michael Ventris was written by his close collaborator in the momentous discovery. In revealing the secrets of Linear B it offers a valuable survey of late

Minoan and Mycenaean archaeology, uncovering fascinating details of the religion and economic history of an ancient civilisation.

Decipherment of Linear B: Michael Ventris, Alice Kober, Ancient Greek Script, Mycenae and Crete

In the 1950s, Linear B was largely deciphered by

Michael Ventris and found to be a syllable-script that encodes an early form of Greek. Although the two systems share many symbols, this has not led to decipherment of Linear A. Using the values associated with Linear B in Linear A mainly produces unintelligible words.

John Chadwick -

Wikipedia

The decipherment of the Linear B script in the 1950s and its recognition as Mycenaean Greek, an early Greek dialect written in a form of orthography quite distinct from the later classical Greek alphabet, was first achieved by the application of cryptographic “code cracking” methods (see

also cryptology).

The Decipherment of Linear B by John Chadwick

Linear B was just so much obscure markings perhaps representing some unknown ancient language until Michael Ventris accomplished his decipherment. The author relates the incredible work done by this genius in

bringing to light that Linear B was a very ancient way of writing Greek.

Amazon.com: Customer reviews: Decipherment of Linear B

The Decipherment of Linear B. The languages of the ancient world and the mysterious scripts, long undeciphered, in which they were encoded

have represented one of the most intriguing problems of classical archaeology in modern times.

Cuneiform - Wikipedia

The Linear B character for saffron is called CROC (the Latin name for saffron is *Crocus sativus*). During his attempts to crack the Linear A code, Arthur Evans thought he saw some similarities to CROC, but reported no specifics and none is listed in any of the other previous attempts to decipher Linear A (Olivier

and Godart or Palmer).
